

# LA CHUECA

MAGAZINE

**BUCARAMANGA, NOVEMBER 2015**

Our best regards.

Through this, we hereby offer you the pages of *La Chueca Magazine* (ISSN 2422-250X), a project of the *Colectivo Chueco* that manages to integrate various cultural and artistic expressions, addressing topics such as literature, philosophy, photography, audiovisual realization, graphic design, music and others; being this way an exhibition midpoint for different artists from the local, national and international scene; and at the same time, an important and effective communication method.

Our magazine is now in a digital format, providing both a social and cultural space through the Internet and social networks; it is focused on showing a new generation of artists and readers, their works, their new projects, news and events in general.

With a quarterly publication, *La Chueca Magazine* allows to unveil social and cultural processes taking place in Colombia and elsewhere.
